

HAWK™

14" Cut-Off Machine

Model : HA933

Specification :

Blade Diameter	-	355mm
Rated Input Power	-	2000W
No-load Speed	-	3800 r/min
Rated Voltage	-	240V
Rated Frequency	-	50Hz
Gross Weight	-	13.6kg
Net Weight	-	11.2kg
Carton Dimension	-	535 x 295 x 395 mm
Stock Code	-	880303004

Construction and Uses

HAWK series of cut-off machines are movable electric tools to cut the type material. They are double insulated tools. Their speed is reduced by a pair of cylinder spiral bevel gears. Their instruments provided are reinforced resin bond grinding wheels. They can cut all kinds of type material. For example, cylinder steel tube, abnormal steel tube, casting iron tube, round steel, angle steel, groove steel, flat steel and so on.

These cut-off machine are widely used in the fields of machine - building; vehicle manufacture, chemical engineering, civil engineering metallurgical and electric power industries, etc. They have the characteristics of easy operating, reasonable construction, top efficiency.
