

GRINDER BEAN

FDM Series is a new kind of soy milk processing machine. It is mainly through the motor with grinding wheel and filter support drive. It adopts latest mechanical seal structure, make filter and motor completely sealed, prevent soy milk spill into motor. The stainless steel body makes the machine more elegant. It is easy to operate with high efficiency. All parts touched with food are good aluminum alloy and stainless steel, conforms to food hygiene standards. It is suitable for enterprise of soybean grinding.

SPECIFICATION

MODEL **FDM-100**

Power : 750 W
Voltage : 230V / 50Hz
Productivity : 35 kg/hr
Speed : 2800 rpm
Dia. of Grinding Wheel : 100 mm
Weight : 28 kg
Dimension : 380 x 410 x 760 mm
Stock code : 880708005A

MODEL **FDM-125**

Power : 1500 W
Voltage : 230V / 50Hz
Productivity : 80 kg/hr
Speed : 2800 rpm
Dia. of Grinding Wheel : 125 mm
Weight : 50 kg
Dimension : 390 x 480 x 900 mm
Stock code : 880708001A

MODEL **FDM-150**

Power : 2200 W
Voltage : 230V / 50Hz
Productivity : 150 kg/hr
Speed : 2800 rpm
Dia. of Grinding Wheel : 150 mm
Weight : 60 kg
Dimension : 460 x 560 x 950 mm
Stock code : 880708002
